

# Brian McInnis

Assistant Professor of Social Informatics

University of Texas at Austin, School of Information

brian.mcinnis@austin.utexas.edu

## EDUCATION

Cornell University, Information Science	PhD	2019
Vanderbilt University, Peabody College	MPP, Education Policy	2008
University of California at Davis	BA, Economics & History	2006

## EMPLOYMENT

School of Information at UT Austin	Assistant Professor	2024 - Current
Research Center for Optimal Digital Ethics	Postdoctoral Fellow	2021 - 2024
The Design Lab at UC San Diego	Postdoctoral Fellow	2019 - 2021
Cornell e-Rulemaking Initiative	Research Assistant	2013 - 2016
RAND Corporation	Project Associate	2009 - 2013
National Center on Performance Incentives	Research Programming	2008 - 2009
University of California, Office of the President	Engagement Analyst	2006

## CONFERENCE POSTERS

Jaiswal, Sneha, Mariah Stember, Bohbin Shim, Mya Berretta, Camille Nebeker, Brian McInnis. (2023, April). Hashtag Health: An Analysis of Gut Health Information Communication and Self-Representation on Instagram. Poster presented at the 2023 Annual UCSD Public Health Research Day, La Jolla, CA.

Kareem, Daniah, Brian McInnis, Ramona Pindus, Maryam Gholami, Camille Nebeker. (2022, March). Making informed consent for biomedical research meaningful to participants: A service design approach. Poster presented at the 2022 Annual UCSD Public Health Research Day, La Jolla, CA.

Kunowski, Rachel, Aidan Yong, Camille Nebeker, Brian McInnis. (2022, March). Understanding the design space for the return of digital mental health research data. Poster presented at the 2022 Annual UCSD Public Health Research Day, La Jolla, CA.

Savannah Gamboa, Ariadne Nichol, Brian McInnis, Camille Nebeker. (2022, March). Factors influencing medication adherence in patients with glaucoma. Poster presented at the 2022 Annual UCSD Public Health Research Day, La Jolla, CA.

Zhu, Summer, Sneha Jaiswal, Brian McInnis, Camille Nebeker. (2022, May). How Are the Ethical, Legal and Social Implications Socialized in the Human-Computer Interaction Educational Pipeline? Poster presented at the Annual UCSD Public Health Research Day, La Jolla, CA.

## TEACHING

Instructor. (Spring, 2025). "Civic Engagement and Technology."

# Brian McInnis

E: brian.mcinnis@austin.utexas.edu

W: bmcinnis.github.io

## Curriculum Vitae

---

Instructor. (Fall, 2024). “Research Methods in Informatics.”

Co-instructor with Prof. Camille Nebeker. (Spring, 2022). “Ethics in Public Health Research.”

*Responsibilities:* Developed and facilitated training on resilience in research environments.

TA with Prof. Camille Nebeker. (Spring, 2021). “Ethics in Public Health Research.”

*Responsibilities:* Synthesized student reports to identify shared ethical principles.

TA with Prof. Kyle Harms. (Fall, 2018). “Introduction to Web Design.”

*Responsibilities:* Coached 12 undergrad teaching assistants to teach six sections (120 students).

TA with Prof. Steven Jackson. (Spring, 2017). “Information Ethics, Law and Policy.”

*Responsibilities:* Developed lectures and led grading for two sections (59 students).

TA with Prof. Solon Barocas. (Fall, 2017). “Ethics and Policy in Data Science.”

*Responsibilities:* Writing coach and grading support for a new course.

Co-instructed with Prof. Gilly Leshed. (Fall, 2016). “MPS Team Projects.”

*Responsibilities:* Developed lectures and helped student teams to meet their project goals.

## INVITED TALKS

“Responsibility in designing ethical research”

(2022). Design and Sociotechnical Systems, U.C. San Diego (Profs. Eikey & Heckler)

“Designing for Deliberativeness in Online Discussion Systems.”

(2020). Introduction to Cognitive Science, U.C. San Diego (Prof. Mary Boyle)

“Ethics and Crowd Work.”

(2019). Crowdsourcing, Cornell University (Prof. Molly Q Feldman)

(2017 & 2018). Crowdsourcing, Cornell University (Prof. Haym Hirsh)

“Crowdsourcing and Teams.”

(2015 & 2016). Teams and Technology, Cornell University (Prof. Malte Jung)

“UX Design with Crowds.”

(2015). Human-Computer Interaction, Cornell University (Prof. Gilly Leshed)

“Methods to make the Complexity in Non-Major Weapons Programs more Transparent.”

(2012). Western Economics Association Conference, San Francisco, California.

## AWARDS

2021 CSCW “Impact Recognition” for “Reporting the Community Beat”

2017 Teaching Award, Cornell University, Information Science

## *Curriculum Vitae*

---

2016	Data Science for Social Good Fellowship, University of Chicago
2013-2014	Sage Fellowship, Cornell University
2010	RAND Silver Award for Research: “Designing the Next Australian Submarine”
2005	U.C. Davis Chancellor’s Award for Diversity and Community Achievement
2005	151 Congressional Record (E729) Innovative Voting Project at U.C. Davis
2005	California State Assembly Resolution: Innovating Voting Project at U.C. Davis
2005	University of California Student Advocate of the Year
2004	Donald A. Strauss Fellowship [\$10,000 to develop “get out the vote” technology]

## **SERVICE**

### **Government**

2005 - 2006 California State Preschool through Postsecondary (P-16) Council on Education

### **UC San Diego**

2021 - 2023	Cultivating Culture Working Group (CCWG)
2022	Annual Undergraduate Research Conference, Session Moderator
2017 & 2020	Organizing Committee, Design for San Diego (D4SD)
2019	Coordinator, Design Lab Research Seminar

### **Cornell University**

2016 - 2018	Provost’s Working Group on Public and Global Activities
2014 - 2015	Information Science Representative, Graduate and Professional Student Assoc.
2014	Expanding Your Horizons (EYH) Workshop “DIY: Designing Social Networks”

### **ACM Computer Supported Cooperative Work (CSCW)**

2023	Co-chair, Special Interest Group (SIG) Committee
2021 - 2022	Awards Committee
2020 - 2023	Associate Chair, Program Committee
2016 - 2020	Reviewer
2016 - 2018	Student Volunteer

### **AAAI Human Computation and Crowdsourcing (AAAI HCOMP)**

2021 - 2024	Program Committee
-------------	-------------------

### **ACM Human Factors in Computing Systems (SIG CHI)**

2021 - 2022	Late-Breaking Work Program Committee
-------------	--------------------------------------

## Curriculum Vitae

---

2016 - 2020 Reviewer

2016 Student Volunteer

### ACM Web Science Conference (WebSci)

2025 Senior Program Committee (SPC)

### SPONSORED RESEARCH ACTIVITY

R01CA244777, National Institutes of Health, Eric Hekler (PI)

2021/09/01-Ongoing

Title: SMH:INT COT Bioethics Supplement

Role: Postdoctoral Fellow

This study involves co-designing a meaningful informed consent prototype with participants to produce and test a digital health consent blueprint to increase capacity for understanding the function of algorithms used in behavioral interventions.

R34DA050341, National Institutes of Health, Christina Chambers (PI)

2021/09/01-Ongoing

Title: 4/6 Planning for the Healthy Early Development Study

Role: Postdoctoral Fellow

Our supplement work will focus on: 1- developing capacity within our consortium to evaluate the types of digital health technologies that are proposed for use with our prospective participants; and 2- identifying barriers and facilitators to truly informed consent by engaging with prospective participants to learn how to communicate complex concepts and, subsequently increase data and technology literacy.

SMA- SBE 2124975, National Science Foundation, Camille Nebeker (PI)

2021/09/01-Ongoing

Title: Ethical and Responsible Research in the Design of Sociotechnical Systems

Role: Postdoctoral Fellow

In this project, the research team will facilitate the development of ethical and responsible research (ER2) instructional prototypes designed to prompt dialogue about ER2 practices in social and computing (sociotechnical) systems for health research. The ER2 instructional prototypes will involve a three-phased process that includes: (1) an assessment of existing ER2 training and practices in academic programs that provide training in human computer interaction (HCI) (2) interviews with health researchers who use/study/develop sociotechnical systems, and (3) conducting community co-design workshops.

CHS 2009003, National Science Foundation, Steven Dow (PI)

2020/09/01-2021/09/01

Title: CHS: Small: Scaffolding Data-Centered Interactions in Online Civic Discussions

Role: Postdoctoral Fellow

This project seeks to increase the level of evidence-based discussion at news websites by creating scaffolding that supports data-literate contributions and by adopting concepts from crowdsourcing such as micro-task workflows, incentives, and quality control. The research vision is twofold: (1) to help individuals form a deeper understanding of a civic issue so that their contributions are more valuable, and (2) to layer these contributions back into the original news article so that the narrative and data presentation continually improve for people just entering the discussion. Communities everywhere

## *Curriculum Vitae*

---

grapple with civic issues, such as housing, mobility, and climate change.

HCC 1314778, National Science Foundation, Claire Cardie (PI)

2013/09/15-2017/08/31

Title: HCC: Large: Social-Computational Support of Civic Engagement in Public Policymaking

Role: Research Assistant

The overarching goals of this work are to understand and to provide socio-computational support for improving the entire cycle of technology-enabled civic engagement: (1) recruitment of people with a stake in the issues; (2) deliberative discussion in which they learn about the policy issues, engage with each other, voice questions and recount experiences; and (3) consensus building in which participants move toward collaborative content-creation, summarization of the knowledge that has emerged in discussion and the development of agreement around key points.
